## Be Brilliant with Signia Active Pro

Why do people look for an edge in today's fast-moving world? From your smartphone to your sports shoes, finding the right accessories helps you get the most out of life, perform at your best, and Be Brilliant. The same is now possible for your hearing.

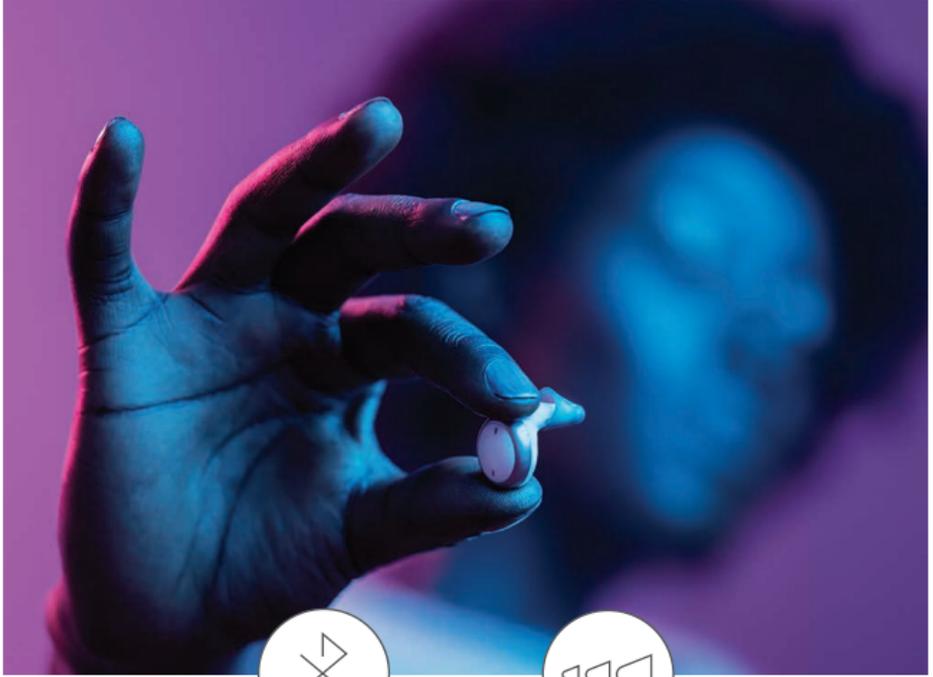

The revolutionary Signia Active Pro earbuds help you to cut through the noise and take your hearing to the next level.

# Take your hearing to the next level

With Signia Active Pro, you no longer have to worry about missing out on conversations or asking people to repeat themselves. Take your hearing to the next level by upgrading to Signia Active Pro.

Bluetooth  
Streaming

Instant  
Fit

## Upgrade to Signia Active Pro

Signia Active Pro earbuds not only stream music and phone calls via Bluetooth in high-definition sound. They also enhance your overall hearing experience, especially in difficult acoustic situations such as large gatherings and noisy places.

## Prescription audio that performs

These unique two-in-one earbuds combine state-of-the-art connectivity with high-definition prescription audio that you find in the most advanced hearing aids. Yet Signia Active Pro looks nothing like any of those because it comes in a pocket-sized charging case that lets you put the buds in and out of your ears when you need them, just like any other set of earbuds.

Thanks to Qi wireless charging, you can just place the case on a charging pad instead of having to plug it in.

### Tinnitus options

If you suffer from tinnitus, Signia Active Pro features a range of therapy options to make your life more comfortable.

Enhanced Speech  
Understanding

Automatic  
Situation Detection

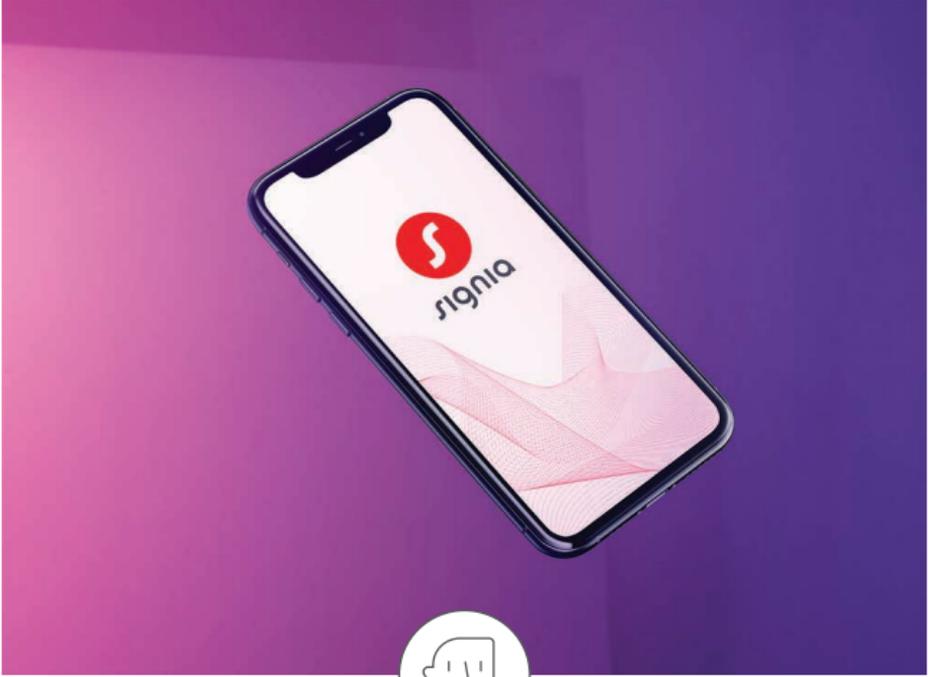

## Hear what really matters to you

Whether you are in a crowded street, working in an open-plan office, or dining in a busy restaurant, wherever there's a high level of ambient noise, holding a conversation requires concentration and effort. Signia Active Pro tackles these challenges expertly with brilliant sound.

### Sleeves

The sleeves come in four different sizes and a closed and open build version suitable for most ear anatomies and hearing needs.

AI Digital  
Assistant

## Personal support, at your fingertips

Signia Active Pro connects to the Signia app, which contains the Signia Assistant and TeleCare support. Using artificial intelligence, the Signia Assistant offers immediate support whenever you need to adjust settings. Signia TeleCare enables you to keep in touch with your hearing professional, so you get extra support on the spot when you need it. The Signia app acts like a hearing professional in your pocket, so you can Be Brilliant in any situation.
